Conceiver and manufacturer of poultry equipment

# FLEXIBLE AUGER

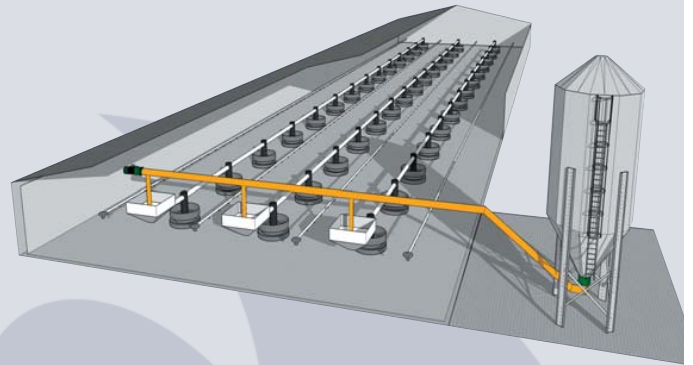

## FEED DELIVERY SYSTEMS

### An efficient delivery system

- Fast transit of feed toward the animals
- Special boots to adapt to any silo
- Hopper silo with single or double exit, straight or 30° for setting 1 to 8 flexible

### Many models and capacities

- The different size standouts for various transport capacity
- Hopper base for 1 or 2 flex, can be set on 1 silo
- Direct power drive with gear-box sized for each application
- Flexible or rigid drop tube, allows for easy animal maintenance
- Standard elements easy to assemble

### Strong and reliable material

- Tubing, elbows and flex made from quality wear-resistant material
- Flexible auger strength combined with elasticity
- The flex system is completely flexible and can adapt to various housing plans
- The system is controlled by hopper level and overload protection switches
- An extension hopper and extra power drive can be installed in long applications

### Technical characteristics

- Hardened steel flex auger highly resistant in one element
- Standard thick PVC tubing of 63, 75 and 90mm (other dimensions on demand)
- Power drive unit of 0,37 kw ; 0,55 kw ; 0,75 kw and 1,1 kw
- Feed conveying capacity range from 450 kg/h to 2200 kg/h
- Total length of 20 to 100m depending of layout or feed
