Ducks equipment

Nipple Drinking System

- For ducks we use grey nipple without tray as the ducks need ample amount of water. Catalog number 02205237.
- Sometimes we add supplementary tools for the first few days it is called SESA catalog number 02205546.
- For broiler ducks we use every nipple for up to 8 ducks.
- We suggest also using "water tank bypass" (2 bar) catalog number 02205165.
- Filter 120 micron must be installed, catalog number 02209079 (it is recommended to fill the water tank also via the filter).
- The water head panel also includes: Medicator, Siliphos softener, water meter, etc.
- The system is fully suspended.

Duck Drinker Com.

Pan feeding system

- Feeder pan for ducks we use "multibeck turkey feeder short neck set" catalog number 02310030.
- We use every pan for up to 70 ducks.
- The pans are assembled on a Plasson standard feeder pipe with regular hopper.
- We also have special control pan for this system, "control unit D45 (shaft 19) w/gear for turkeys/ducks" catalog number 02311190
- We recommend a 10 ton Silo with fill line into the house.
- The system is fully suspended.
