

PICORETT

STARTING FEEDER

ESSENTIAL COMPLEMENT TO PRESERVE THE QUALITY OF THE FEED

- + **COMPLEMENT TO CLASSIC FEED PANS**
- + **LIMITS THE USE OF ANTIBIOTICS**
- + **BETTER PERFORMANCE**
- + **SPECIFIC ACCESSORIES ACCORDING TO BIRDS AGES AND SPECIES**

PICORETT

STARTING FEEDER

ESSENTIAL COMPLEMENT TO PRESERVE THE QUALITY OF THE FEED

COMPLEMENT TO CLASSIC FEED PANS

The start requires many more feeding points.

Picorett overcomes the shortcomings of high rim or overflow feed pans that allow chicks to remain in the pan and on the feed.

Picorett prevents one-day-olds from penetrating into the pan for optimum access to feed which is not soiled by chicks

- ▶ 20 chicks have access to the feed at the same time.

LIMITS THE USE OF ANTIBIOTICS

Uncontaminated feed

- ▶ preserves feed
- ▶ intestinal integrity

BETTER PERFORMANCE

Reduced mortality.

Higher live weight from the first days.

Homogeneity of the flock.

SPECIES-SPECIFIC ACCESSORIES

Lid ▶ prevents birds from jumping into the feed reserve.

Anti waste grid ▶ for guinea fowls and quails.

Base to heighten (Height = 5cm) ▶ adapts to the growth of the birds ▶ prevents litter from being thrown into the feed.

TECHNICAL CHARACTERISTICS

- ▶ Feed pan: Ø 32 cm, depth: 4,2 cm
- ▶ Reserve: 12,5 L
- ▶ Simple and precise setting due to one central screw
- ▶ Easy cleaning and disinfection
- ▶ Resistance and durability of the material
